# Varn® VWM Wash

Economical water miscible roller & blanket wash

## Roller and blanket wash for conventional offset inks

### Product Features

- Varn® VWM Wash is a water miscible, one step wash formulated to meet ecological requirements for safety in roller and blanket washes.
- Varn® VWM Wash is water miscible, which means that it does not contain water but readily mixes with water to effectively remove all gum glaze and paper fibres.
- Varn® VWM Wash sells for less than most water miscible washes and for additional economy, it can be mixed with up to 25% water without reducing its cleaning action. This also reduces the evaporation vapours and the total volume of wash used.

### Advantages of Varn® VWM Wash

- Water miscible.
- Plate safe on majority of negative/positive printing plates.
- Economical.
